Spectrum AUTHORIZED CHANNEL PARTNER

Internet backup

Have a plan for the connection you depend on.

Identify what must keep working

List checkout, calls, scheduling and other essential tasks. Each device may need its own power source.

Compare available backup options

Ask about cellular coverage, compatible equipment, failover behavior, data limitations and current pricing.

Test the full setup

Arrange a controlled test with the provider. Battery runtime and cellular performance vary; backup is not a guarantee of uninterrupted service.
