Spectrum AUTHORIZED CHANNEL PARTNER

# WiFi options

Coverage for the day. A plan for interruptions.

## Advanced WiFi

Managed router, Security Shield and a separate guest network. Ask about the equipment and features available for your location.

## Invincible WiFi

Cellular failover and up to eight hours of battery backup when fully charged. Compatible equipment and service eligibility required; coverage and speeds vary.

## Static IP and network needs

Ask about a consistent address for hosting or remote-access devices. Backup does not guarantee every device stays powered or every application keeps working.
